- Description of all the zone sites covered by the application.

- A statement of the general character of the merchandise to be admitted, and the anticipated greatest value of any merchandise admitted to the zone at any one point in time (for bond calculation).
- Certification that electronic processes are in place to receive electronic cargo status messages (Automated Manifest System (AMS) access).
- Certification: "I certify that the factual information contained in this application is true and accurate and any information provided which is based upon estimates is based upon the best information available on the date of this application."

The application must be accompanied by the following:

1. A blueprint of the area approved by the Board to be activated showing area measurements, including all openings and buildings; and all outlets, inlets, and pipelines to any tank for the storage of liquid or similar product, that portion of the blueprint certified to be correct by the operator of the tank;
2. A procedures manual in the English language describing the inventory control and record keeping system that will be used in the zone, certified by the operator or grantee to meet the requirements of Subpart B of part 146 CR;
3. The written concurrence of the grantee when the operator applies for activation;
4. A list of the officers of the company, including title, and a list of persons that will have access to the Foreign Trade Zone site. These lists shall include names, addresses, phone numbers, Social Security numbers, dates and place of birth; (furnishing this personal data substantially expedites processing and prevents misidentification). Also, an "Authorization for Release of Information" form may be completed voluntarily by the employees in order to better inform the applicant of any unfavorable information which could affect the outcome of the request.
5. Federal IRS identification number on a completed Customs Form 5106 (enclosed). This form must be submitted in duplicate and mailed along with the other application materials to the attention of:

Customs and Border Protection
Attn: Customs Bond Desk

You will receive an approval or denial letter explaining the next steps of activating the bond upon the decision made by the Port Director. Generally the application process can take anywhere from 1 to 4 months after the application was submitted to Customs.
